

Ramona

beat up and broken down
Santa Fe was just another town
quick stop and I'd be on my way
a dreamer chasing a lucky break
5 sets in a one man show
back stage silence and a soft hello
so amazing in that little black dress
we went from zero to 90 with a drink and a kiss

oh ramona things could have been different
if I told you

3 little words that you never heard
stuck on the tip of my tongue
if only I told you

Ramona

6 days we stayed right there
baby we barely came up for air
so close to love I was over come
I could feel myself falling
and I had to run

Now the sun is low in that winter sky
But Im still lost in those summer nights
